

Newfields-Exeter Community Forest Fort Rock Trails PUBLIC MEETING

**Tuesday, November 14
7-8 p.m.**

Newfields Town Hall

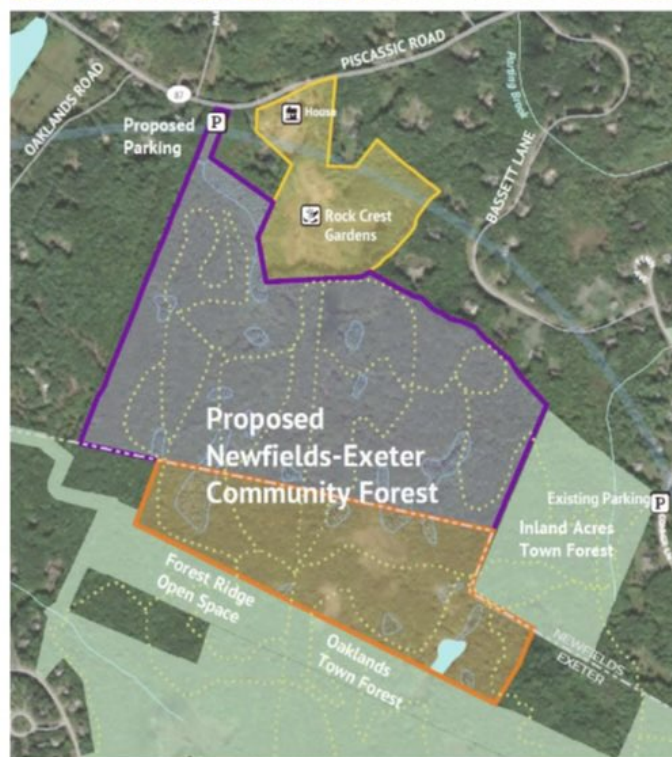

Join this second public meeting to learn more!

In the first public meeting in July, we introduced the project and heard your input.

In this second public meeting, **we will discuss trails and recreational uses, and next steps to requesting town funding.**

Proposed Project:

- Purchase of 101 acres of private land by the Town of Newfields along Piscassic Road/ Rt 87 - see purple area of map
- Purchase of 47 acres of private land by the Town of Exeter - see orange area of map
- This would become public land, and managed as a Community Forest
- This would protect existing "Fort Rock" trail network in Newfields and Exeter, a large section of the forest currently used by the community, and would allow for expansion of the adjacent town forests for public use.

Hosted by: Trust for Public Land, Newfields Conservation Commission, and Southeast Land Trust
